Senior Secondary Education
IGBOKODA GRAMMAR SCHOOL

📅 2012   📍 Igbokoda Ondo State, Nigeria

PROJECTS

Gift Card Trading Platform
- Played a pivotal role in developing the RIZOKA Trading Platform, employing HTML, CSS, JavaScript, and React JS to enrich user experience and functionality
- Collaborated seamlessly within a diverse team to introduce features and address technical challenges, ensuring the platform's seamless operation.

OTP Input Verification with React JS
- Engineered and executed an OTP (One-Time Password) input verification system using React JS, bolstering security measures and user authentication for web applications.
- Implemented intuitive user interface designs adhering to industry best practices, facilitating effortless OTP input and verification processes.

API Integration with TypeScript
- Utilized TypeScript to call APIs, ensuring robust data retrieval and manipulation within web applications.
- Demonstrated proficiency in handling API responses and implementing error handling mechanisms for enhanced application reliability.

Event Planning Website
- An app made with HTML, CSS, JavaScript to help the event planner like wedding planner and event decorator to sell their works without an intermediary

API Integration with React JS (E-Commerce Website)
- Leveraged React to seamlessly integrate with APIs, enabling dynamic data fetching and rendering in web applications
- Employed best practices to manage state and lifecycle methods effectively, optimizing performance and user experience

SKILLS

HTML, CSS, JS, React JS, Next Js, React Native

MongoDB, Node Js, Express Js, Supabase

EXPERIENCE

- **Internship:** Done my internship at Sabi Programmers and work on few project there and also tutor the students on web development.
  Duration: 3 month

- **Junior front-end Developer:** I work as a frontend developer at RIZOKA LTD company in Abuja, Nigeria.
  Duration: 2022-2023

- **Full-Stack Instructor:** At Sabi Programmers, I work as a full-stack Web Development instructor. I put in all my effort to make sure I impact very well to the student and the upcoming software developers.

STRENGTHS

Self-motivated   Hard Worker   Programming   Problem Solving   Music

CERTIFICATIONS

- **Frontend Development Libraries:**
  Learned to add logic to the CSS styles and extend them with Sass and Tailwind CSS. I also learned to create powerful Single Page Applications (SPAs) with React and Redux.

- **BackEnd Development and APIs:**
  Learned how to write back end apps with NodeJs and npm. I also built web applications with the Express framework, and build some mini-projects

- **Dynamic Programming**
  Learned dynamic programing from basics. Learned about knapsack problem in dynamic programing and lot more.

LANGUAGES

- English
